Bob,

I have seen portions of this before, but not recently. I'll look through the document this weekend and highlight anything I think needs attention.

We have a lot to review over the weekend it appears.

For this document, Anne, how about you start reviewing comments around page 60-65 and work to the end? As time permits, go back to page 1 and review.

I will review pages 1-60-65. As time permits, I will review 65-130.

Adam – try to review as much as you can. It will be important to go look at the risk assessment sections once we get those to see if the response there comports.

Chris –have you seen these comments and responses? What are your thoughts? Any areas of vulnerability? If so, what? If you can review too, that would help. I suspect you helped on some subset of these.

Thoughts?

Thanks
